- ✦ **Pilot and Maintenance Training**
- ✦ **Contracted Logistical Support**
- ✦ **Spare Parts & Maintenance**

International Defense & Aerospace Group (IDAG) is a global provider of full lifecycle aviation solutions for government and commercial customers. Founded and operated by veterans of the United States military. Through our global network of 100% wholly-owned subsidiaries, IDAG delivers new and refurbished rotary and fixed wing solutions—purpose built for specific mission sets, provides best-in-class training for pilots and maintainers, and delivers contracted logistical and maintenance support. We pride ourselves in delivering Western/NATO platforms to customers in all operating environments and with a diversity of missions, ranging from military aviation to firefighting, utility and Tactical Intelligence, Surveillance and Reconnaissance (TISR). We work with our customers to provide mission-capable, cost-effective, and sustainable solutions. We stand ready to meet our customer’s challenges and help them identify and incorporate leading-edge solutions into their fleet.
